## PLATINUM PRODUCED BY THE BOSS MINE

The Boss mine at Platina, near the Mesquite valley, on the California line between Clark and San Bernardino counties, is going to make an effort to increase the production of platinum which is found in that property in the contact in the shape of stringers from which it is said some difficulty has been experienced in saving the rare metal. Last week a small brick was shipped to the headquarters of the company at Los Angeles, where it was placed on exhibition and attracted much attention. Nevada and California are the only states known to have any deposits of this precious metal which is so much demanded by the government for the manufacture of munitions.

## NO MEN OBTAINED WITH \$1 PER HOUR OFFERED LABOR

Shortage of men, even with one dollar per hour hung up as pay, and difficulty in securing boxcars, is seriously hampering the shipment of wool from this city. Wool is on the platforms of practically every station on the two railroads in this district, held there either because men cannot be hired to load it or because of delay in spotting boxcars.

The E. Reinhardt company shipped one car of wool to the Union Wool company Sunday, and H. L. Bonfield, acting for R. H. Dunn, shipped a car to Koshland & Co. the same day.—Elko Independent.

Children in the public schools of Porto Rico are making pajamas for the use of the American Red Cross.

## BLUESTONE SOLD TO CANADIAN FIRM

## DE LAMAR SELLS CONTROL TO DOMINION CONSTRUCTION COMPANY

Probably one of the largest mining sales that has ever been made in this section of the west was consummated the early part of this month, when J. D. De Lamar sold the controlling interest in the Bluestone Mining & Smelting company to the Dominion Reduction company of Canada, says the Yerington Times. The new company has taken charge of the property, and Maurice W. Summerhayes, a well-known mining man of Canada, is in charge as general manager.

The Dominion Reduction company is one of the largest mining companies in Canada, and it at present also is operating the Porcupine Crown Mines, Ltd., at Timmins, Ont., and others at Cobalt. Their purchase of the Bluestone speaks volumes for the merits of the mine.

A flotation mill of 400 tons daily capacity is now in operation on the property, but the management expects to grow it to 500 tons. In building this mill, the crushers and filters of sufficient size for a 1000-ton daily plant were installed, and it is expected that another unit will soon be added to those already in operation. In view of the fact that materials have been very difficult to obtain, this plant has been built in record time. The mill is turning out 44 tons of concentrates every other day, which average about 25 per cent copper, with a loss in the tailings of less than 1 per cent. Aside from the ore which is run through the mill, some 300 tons of oxide ore is being shipped daily to the Thompson smelter.

Before the mill was built better than a million tons of ore were blocked out, with the possibilities of more ore being developed at a lower level, which in itself assures considerable duration to the mine.

## CAUGHT BY FLOOD NEAR CON. MILL

John Du Prat, with his wife and baby, Louis Servant and Miss May Uren were caught in the cloudburst while going to Goldfield last evening, but succeeded in making their way out and returning home this morning. The party left here in a Dodge car at 5:30, with the intention of visiting relatives, and made good headway until about five miles from Goldfield on the southern side of the Alkali road where they were confronted by a wall of water four feet high. The car was turned and full power turned on to beat the stream that was directly at the rear tires. After hard work Servant succeeded in making his way around the flood and getting into Goldfield. Leaving that point at 11 o'clock Tonopah was not reached until 5 o'clock this morning.

## HOME SERVICE OFFICE AT THE MASONIC HALL

The home service department of the American Red Cross now has a branch in Tonopah, of which Mrs. Thomas Lindsay is chairman and Mrs. Ralph Burdick secretary. The office of this department is to offer assistance and aid in practically any difficulty that may arise in the family of a soldier who has been called to the colors, either our own or our allies. The scope of the work is very broad and back of it stands the American Red Cross, the finest humanitarian organization the world has ever seen, and also the strength of the government of the United States.

The Masons have generously given office room for this work just inside the upstairs entrance to their building and here every afternoon between three and four o'clock one of the ladies in charge of the department can be found by those in need of advice, financial assistance or aid of any kind. This is not charity but a just service rendered by their country to those who are serving her and the cause of freedom so well.

## DISSOLUTION NOTICE

Notice is hereby given that the firm of Hickernell, White & Bilyeu, conducting the Mizpah Hotel, Tonopah, was by mutual consent dissolved on Saturday, June 15, 1918. Charles Bilyeu retiring from the firm. All bills due the late firm are payable to Hickernell & White, and all bills owed by the late firm will be paid by Hickernell & White.

Dated: Tonopah, June 18, 1918.  
GEORGE HICKERNELL,  
J. F. WHITE,  
CHARLES BILYEU.

I loan you a watch to carry while I repair your own. I am the finest watchmaker who ever came to Tonopah. Emil Merman at Robert's Grocery store. AdvJ18110

## THRILLING EXPERIENCE IN ELECTRICAL STORM

One party succeeded not alone in reaching Goldfield during the storm last night, but also in returning this morning, making the trip in four hours and coming across the flat instead of going via Diamondfield. At 6:30 last evening, before there was any indication of the storm, Mr. and Mrs. M. I. Davenport, accompanied by Mr. W. H. McAllep, started out in the Davenport car with the object of meeting Mrs. McAllep and daughter, who were expected by the Las Vegas & Tonopah train arriving in Goldfield about 7:30 o'clock. On approaching the half-way house the party encountered a wave between eighteen inches and two feet high roaring down from the south, and realized there was no time to be lost if they wished to escape. Turning the car they raced back two miles where the same dry watercourse crosses the road and managed to beat the storm waters to that point.

In the south the sky was overcast and so threatening that it seemed as though something dreadful was about to happen. The clouds hung low and the lightning flashed almost on the ground and the whole panorama was almost appalling. Arriving in Tonopah the party changed cars as Mr. McAllep was determined to reach Goldfield, knowing his wife would wait for him. Mr. McAllep's car was taken for the second trip and a fresh start was made at 11 o'clock. The torn-up conditions of the roads may be understood when it is known that the party did not reach Goldfield until 3 o'clock this morning. The Las Vegas train had been delayed by the storm and did not reach its destination until 3 o'clock. Then the party began to feel the way back to Tonopah, but it was not until 7 o'clock this morning that this camp was reached. In places there was not a vestige of the road and wide detours had to be made to avoid deep water or to overcome huge gashes in the roadway caused by the rushing waters.

## CLOUDBURST BREAKS NEAR GOLDFIELD

(Continued from Page One.)

Deik was out all night doing his best to restore communication with Goldfield which was left in darkness by the constant play of lightning stripping the insulators off the line. The last report from the line crews was that there was not a single insulator remaining on the poles between Alkali and the southern camp.

The center of the electrical disturbance was between Alkali and Goldfield, but west of the latter point there was constantly recurring trouble as far as Silver Peak station. Between Tonopah and Alkali lightning was constantly playing and fuses were popping but the trouble in this district was only shortlived and the service here was subjected to an interruption of less than an hour. The copper lines held firmly but the aluminum was constantly breaking owing to its more brittle nature and this virtually reduced the company to one line, shutting out the duplicate line of aluminum.

In Goldfield the railroad shops caught the worst of the flood as they are located in a swale running north and south from Aluminum street to Columbia, where the water gathers from four directions in seeking an outlet to the broad expanse of the San Antonio desert which spreads out after passing beyond the malpais formation. The water did no damage as the yards are well drained and free access is provided for the surface flow from the eastern hills.

In the vicinity of Millers, west of Tonopah, the entire valley is under water and travel by auto is impossible.

W. D. Forster, general superintendent of the Tonopah & Goldfield railroad, came in this morning from Reno and immediately took charge of the situation which he said was not as serious as pictured as the only interruption between Tonopah and Goldfield was due to a couple of small trestles being washed out.

## LYON COUNTY ROADS MAY BE BUILT SOON

CARSON CITY, June 20.—The secretary of agriculture has given his approval to project No. 8 of the Nevada department of highways, which embraces new road construction connecting Mason and Smith valleys, in Lyon county, by way of Wilson canyon.

This means that government aid will be extended to the project. As soon as the department of highways obtains federal sanction of the plans and specifications covering construction of the road bids will be advertised for.

The road will be financed as follows: Federal aid, \$32,957.65; state highway fund, \$8955.65; county highway fund, \$6002; special appropriation by Lyon county, \$20,000. Total, \$65,915.30.

## LAURANCE CASE STILL HOLDS JURY IN COURT

The Laurance mayhem case still occupies court and jury and it may possible that the defense may close, if the state dispenses with rebuttal, the case will go to the jury this evening. The witnesses were Officers Modern Hayward and Dan Corbett. Laurance was also called to the stand.

McAllep was determined to reach Goldfield, knowing his wife would wait for him. Mr. McAllep's car was taken for the second trip and a fresh start was made at 11 o'clock. The torn-up conditions of the roads may be understood when it is known that the party did not reach Goldfield until 3 o'clock this morning. The Las Vegas train had been delayed by the storm and did not reach its destination until 3 o'clock. Then the party began to feel the way back to Tonopah, but it was not until 7 o'clock this morning that this camp was reached. In places there was not a vestige of the road and wide detours had to be made to avoid deep water or to overcome huge gashes in the roadway caused by the rushing waters.

On the way six cars were encountered at various places where they had been abandoned after buffeting the storm. Some of these were minus a wheel, some had their fenders torn off and others showed the effects of hard travel, but in no case could any sign of the owners or occupants be found. The alpine pond of the Consolidated was about the worst part of the road to negotiate as at that point the road traverses a shallow gulch and there is no way to escape.

## TONOPAH AGENT GETS PROMOTION

R. E. Kyle, local agent of the Wells-Fargo company has been advanced to route agent at Kansas City and will leave for his new post about the first of the week. Mr. Kyle is familiar with the duties of his office since he has had experience as a route agent in Southern California where he was stationed with headquarters in San Bernardino for two years. Mr. Kyle came here on the first of last September, when he succeeded Mr. Scruggs, who likewise was taken away from Tonopah for a well deserved promotion. Mr. Kyle has been in the service of Wells-Fargo for twenty years and is going to a field where he is well acquainted. Mrs. Kyle is now in Kansas City, but will return to Tonopah about the first of July.

Until a permanent appointment is made the local office will be in charge of J. C. Pepling, a relief agent.

## BOYS LOOT HOUSE ON CENTRAL STREET

Some time yesterday afternoon the residence of A. T. Lundlee on Central street, near the California shaft, was looted by a gang of boys most of whom are known and will be called to account by the police. The lads gorged themselves with preserves and canned goods and, what they could not consume they destroyed. The loss and damage is estimated at \$18. Mrs. Lundlee is visiting her parents in the east and the house was without any person in charge when the boys made their raid.

## WAR SONGS FOR RED CROSS

Mrs. Lenore Sollender Hanby of Los Angeles, formerly a resident of Tonopah, has composed four war songs which were recently submitted to a committee of the Red Cross at Whittier, Cal., appointed to select one of the songs which is to be sold for the benefit of the Red Cross chapter.

## TAX ROLL CLOSED; NO DELINQUENTS

In the matter of tax payments the county of Ormsby comes to the front this year with a record that is exception. Clerk Morton gives out the report that the tax roll is now closed and that it is without a single delinquent. There are probably very few towns, the size of this one, in the entire country, that can boast of a record equal to this. Carson is to be congratulated on such a showing of thrift and prosperity.—Carson News.

## NEW TODAY

**ECKMAN'S Calcerbs**  
INVALUABLE FOR COLDS  
If taken in time this Calcerbs compound lessens the risk of chronic throat or lung trouble. All the germinal and toxic qualities are combined in this Calcerbs compound. No harmful drugs. Try them today.

## PERSONAL

MR. and MRS. CHARLES BILYEU left this morning for an extended trip through the northwest.

MR. and MRS. W. D. FORSTER arrived this morning from Reno and motored over to Goldfield.

LOUIS AMUNDSEN, who has been on the coast for the past two weeks, returned to Tonopah this morning.

JOSEPH L. JOSEPHS, president of the MacNamara Mining company, arrived from San Francisco this morning.

MRS. CARL ISMERT and child were passengers today for Oakland where they go for several weeks visit with relatives.

MRS. O. DOUGHERTY was a passenger today for Reno, whence she goes to San Francisco for several weeks' outing.

MRS. J. E. HAYES departed by auto today for Manhattan, where she and her husband have taken up their permanent residence.

MASTER FRANCIS GILLON, a ten-year-old lad, left this morning for Shoshon, Idaho, where he goes traveling alone to visit his father.

ARLEEN DALZELL, daughter of Mr. and Mrs. Robert Dalzell, was a passenger this morning for Reno, where she goes to enter a business college.

MR. and MRS. JACK AYLWARD came over from Goldfield today by automobile to accompany Mrs. Aylward's mother, Mrs. Dennis, back to Goldfield. The party included Mrs. Coffey.

## CHRISTIAN SCIENCE CONSCRIPT APPEALS

An appeal to President Wilson on behalf of Gustavus S. Paine, a Christian Science practitioner, whose request for deferred classification was refused by the district board last Friday, has been taken by Paine's attorney, S. W. Belford. Paine asks for exemption from military service on the ground of being a religious teacher. He was placed in class one. The case has created considerable interest since the decision of the president will clear up the question of whether or not a practitioner and teacher of Christian Science is to be considered by the military authorities in the same class as a minister. So far as known here it is the first case of its kind to be placed before the president for his consideration.—Gazette.

## PROCLAMATION

WHEREAS, The president, at the request of the national war savings committee, has issued his proclamation to the nation:

NOW, Therefore, I, Emmet D. Boyle, governor of the state of Nevada, in harmony with this movement, do, by virtue of the authority in me vested, designate and proclaim, in like manner, JUNE 28, 1918, as WAR SAVING DAY

It is desired on that day to give special emphasis and culmination to the campaign to produce widespread private economy and to induce the investment of the funds thus saved in war saving stamps, thus doubly serving ourselves and the nation at war.

Nevada has her quota to fulfil in this as in all war campaigns and we have set a standard in war activities that will not permit us to fail in this. The campaign has been under the direction of the Hon. Fred L. White, state director for Nevada, and the people are asked to further co-operate with him and to respond to his directions in order that we may justify the expectations which our past records have aroused respecting us.

Given under my hand and the Great Seal of the State of Nevada at the Capitol in Carson City, this 26th day of May in the year of our Lord one thousand nine hundred and eighteen.

By the Governor:

EMMET D. BOYLE, Governor.

GEORGE BRODIGAN, Secretary of State.

## AMUSEMENTS

## "TOM SAWYER"

It is a well known fact that Mark Twain would never allow his famous book, "Tom Sawyer," to be dramatized, for the reason that he thought it an impossibility to show the white town of Hannibal, Mo., drowsing in the sunshine by the sleepy Mississippi. In this photoplay, the immortal boy hero is masterfully portrayed by Jack Pickford, and all the details go to make up a perfect portrayal of the little Missouri town of the last century, showing the very house in which Mark Twain lived as a boy and the house where Huck Finn lived. The familiar details from the start where Tom engages in a fist combat with one of the goody-goody dressed-up town boys, rolling him in the dirt, and after making the youngster yell "huff," chases him clear home under the sheltering wing of his fond mother, to the finish when, after running away with Huck Finn, he returns home and finds his Aunt Polly planning his funeral service, make a picture which everyone is bound to enjoy from the very beginning to the last foot. This will be the attraction at the Butler this evening. Also a Paramount Photoplay and Bray cartoon.

Tomorrow, Pearl White, in "The House of Hate," Charles Chaplin, in "The Rink," and the last Tonopah pictures of the Serbians leaving for the front.

## ODDFELLOW ENCAMPMENT COMPLETES ITS BUSINESS

CARSON CITY, June 20.—After the convening of the Oddfellows' encampment, reports of the different officers were read and referred to their respective committees.

At the afternoon session the following officers were elected for the coming year: Grand patriarch, Albert Kietzke, of Reno; grand high priest, Geo. P. Armstrong, of Reno; grand senior warden, C. P. Kapor, of Carlin; grand treasurer, C. Novacovich, of Reno; grand scribe, Wm. Southerland, of Reno; grand junior warden, C. W. Grover, of Elko; grand trustees, W. H. Christian, Pioche; C. R. Carter, Reno; W. H. Frazer, Reno; marshal, H. C. Mulcahy, of Sparks; inner guard, Chas. Gault, of Reno; outer guard, John Johnson, of Reno. After the installation of officers the grand encampment adjourned sine die.

It sometimes happens that a foolish woman mistakes her disagreeable disposition for a proud spirit.
